Condiciones generales

Condiciones de garantía

Nuestros sofás y sistemas de descanso están fabricados bajo estrictos controles de calidad, garantizando la reparación o sustitución de cualquier defecto derivado de fabricación.

Exclusiones y pérdida de garantía

Las siguientes situaciones no estarán cubiertas por la garantía, ya que se consideran derivadas del uso habitual o de un mantenimiento inadecuado del producto.

Desgaste por uso

El uso continuado de un sofá puede provocar un desgaste natural de tapicerías, acolchados y estructuras. Es habitual que los asientos y respaldos experimenten ligeras variaciones en firmeza y apariencia con el paso del tiempo.

Asentamiento de espumas y rellenos

Con el uso diario, los materiales acolchados pueden perder parte de su volumen o firmeza inicial. Este comportamiento es completamente normal y no afecta a la funcionalidad ni a la calidad del sofá.

Uso inadecuado del producto

Los daños ocasionados por una utilización incorrecta, manipulación indebida o mantenimiento inapropiado no estarán cubiertos por la garantía. Esto incluye roturas, deformaciones o deterioros derivados de un uso inapropiado.

Manchas, roces y daños externos

La garantía no cubre manchas, arañazos, enganches, roces o daños ocasionados durante el transporte realizado por terceros, una manipulación incorrecta o un mal uso del producto.

Daños por agua, humedad o fuego

Los sofás deben mantenerse alejados de fuentes directas de calor, humedad excesiva o líquidos. Los daños producidos por agua, incendios o exposición prolongada a condiciones inadecuadas quedarán excluidos de la garantía.

Formación de bolitas en tejidos (Pilling)

Algunos tejidos pueden presentar pequeñas bolitas superficiales debido al roce y al uso continuado. Este fenómeno es habitual en determinadas tapicerías y no afecta ni a la calidad ni a la durabilidad del sofá.

Costuras y pequeñas variaciones

Las ligeras diferencias en acabados, costuras, tonalidades o medidas forman parte del proceso de fabricación y no se considerarán defectos de producción.

Tolerancias de fabricación

Todos los modelos pueden presentar pequeñas variaciones en dimensiones de +/- 5cm, al igual que pequeñas variaciones en tonalidades o firmeza dentro de los márgenes técnicos aceptados por la industria del mueble tapizado.

Reparaciones

En caso de incidencia cubierta por garantía, nuestro equipo técnico evaluará el producto y determinará la reparación, sustitución o solución más adecuada. No se aceptarán reparaciones de productos que presenten daños ocasionados por humedad extrema, suciedad excesiva, manipulación incorrecta o falta evidente de mantenimiento.
